

I'm not robot!

Rhyming couplets are a staple in poetry construction. Shakespeare used the device in all of his plays. This poetry worksheet asks your student to write rhyming couplets using pairs of words in a word bank. While helpful for a variety of students, it's particularly useful for 4th, 5th, and 6th grade Common Core Standards for Writing. The typo has been corrected - should have said 'slurry' otherwise there is no rhyme. Sorry if that caused some discomfort in your class. My class didn't notice - but I did use it in a PRU. ¡Terminado! Por favor, permite el acceso al micrófono Mira en la parte alta de tu navegador. Using these worksheets, children can gain a greater understanding of rhyming couplets and use this knowledge to create their own. Activities encourage children to identify and correct rhyming couplets or verses where rhyming couplets do not scan well due to line length, choice of rhyme or a change in topic. Different prompts then encourage the children to get creative and write their own rhyming couplets and verses. The worksheet contains five different challenges, which can be used during one lesson or spread over a number of teaching sessions. Questions encourage creative responses and interesting images are used to stimulate ideas. This primary resource is divided into five sections: Understand Can you add second lines to complete the five rhyming couplets opposite? Explain The examples given are not good rhyming couplets. Explain what is wrong with each one. Challenge Select a pair of words from each of the word banks provided and write a rhyming couplet using them. Test Look at each of the short pieces of writing. Rewrite each one so that it is a stanza containing four lines and two rhyming couplets. Apply Choose two of the images provided. For each, imagine yourself in this setting, and create a rhyming stanza to describe it.
